

PROJECT FLAME

ASSET OVERVIEW

SIA Group is excited to present a unique opportunity to acquire the intellectual property assets relating to a third-person action RPG video game currently under development. Designed for PC and next-generation games consoles, this title represents the cutting edge of cooperative gameplay and immersive world-building.

Developed by a renowned next-generation media company with a strong track record in the industry, the title focuses upon cooperative multiplayer gameplay for up to four players to tackle challenging missions across an expansive world featuring dynamic environments, rich storytelling and a responsive combat system.

To date, the game has received c.\$10m of investment, and represents a fantastic opportunity for a developer or publisher to finalize development ahead of release.

Interested parties are requested to deal specifically with Emre Turan and Emily Muir at SIA Group. Further information including access to the virtual data room can be provided upon execution of an NDA.

HIGHLIGHTS

Stunning dark fantasy, souls-like dungeon crawler game built on Unreal Engine 5, featuring:

- **Expansive post-apocalyptic world** with diverse biomes, intricate lore, and dynamic environments that encourage exploration and engagement.
- **Epic Combat Encounters:** A robust combat system pitting players against unique enemies and bosses, rewarding planning, skill, strategy, and teamwork.
- **Strong replayability value** including new story quests and events with each play through, together with live content including leaderboards, characters and challenges.

MARKET POTENTIAL
